Intolerance Complex®

Specialized Enzymes for Food Sensitivities*

Between 30% and 40% of adults experience occasional indigestion and abdominal discomfort.¹ However, research shows that supplementing with digestive enzyme supplements can significantly reduce abdominal discomfort and bloating.^{*2,3}

Intolerance Complex® delivers higher-potency digestive enzymes to target all major food intolerances, including gluten, casein, lactose, phenol and complex carbohydrates and enzymes to break down all macronutrients.*

How Enzymes Support Digestion

The body naturally produces digestive enzymes, which break down food into nutrients and molecules small enough for the body to absorb and use for metabolism of energy, growth and cell repair.⁴ It takes adequate amounts of digestive enzymes to properly digest food and assimilate the nutrients. Age takes a toll on digestive enzyme production, as do factors such as the standard Western diet.

Insufficient enzyme supplies can slow down the digestive process, causing food to remain undigested or partially digested in the stomach. Inefficient or slower digestion can cause abdominal discomfort and occasional constipation, due to the gas produced when bacteria ferment undigested carbohydrates in the colon.⁵ Slow digestion can also cause reduced nutrient absorption. However, digestive enzyme supplements offer support without impacting the body's natural production of enzymes.*

The Digestive Enzymes in Intolerance Complex®

Formulated specifically for food intolerances, Intolerance Complex® includes higher-potency enzymes that offer support for digestive sensitivities. We include enzymes that digest carbohydrates, protein, fiber, fat and dairy.* Since enzymes work at different pH levels, Enzyme Science includes multiple variants of many enzymes. Our Thera-blend® enzymes provide extra-strength meal digestion.* We ensure they can get where they need to go – so they can get to work.

The formula includes dipeptidyl peptidase IV (DPP-IV), proven break down moderate amounts of gluten (a protein in wheat, rye and barley) and casein (dairy protein).^{*3,6}

Lactase is known to significantly reduce the onset of occasional bloating, gas and abdominal discomfort by efficiently digesting lactose (milk sugar).^{*7} Randomized, placebo-controlled trials have shown that alpha galactosidase breaks down carbohydrates into easily digestible sugars to reduce gas production and related abdominal symptoms in adults.^{*10,11,12}

Cellulase is a category of enzymes the body does not produce. These enzymes must be consumed in foods or as a supplement. Intolerance Complex™ includes cellulase, pectinase and hemicellulase enzymes to digest fiber molecules in plant cell walls, to better assimilate plant-based nutrients.

- Help digest gluten, dairy & phenols*
- For common food intolerances*
- Macronutrient digestion*

Enzymes to target some food intolerances (gluten, casein, lactose, phenol and complex carbohydrates) and all macronutrients.*

Intolerance Complex® includes higher-potency enzymes that offer support for digestive sensitivities.* Helps the body break down food more efficiently.* Delivers fast digestive relief for occasional bloating, gas and indigestion.

SUPPLEMENT FACTS

Supplement Facts

Serving Size: 2 Capsules
Servings Per Container: 45

| Amount Per Serving | %DV | |
|--|-------------|----|
| DPP-IV | 2,000 DPPU | ** |
| Xylanase | 30,000 XU | ** |
| Protease Thera-blend® | 140,000 HUT | ** |
| ATP® (ATP, Magnesium Citrate, Phytase, CoQ10) | 156 mg | ** |
| Amylase Thera-blend® | 14,000 DU | ** |
| Alpha Galactosidase | 1,200 GalU | ** |
| Glucoamylase | 40 AGU | ** |
| Lactase | 3,000 ALU | ** |
| Pectinase | 50 Endo-PGU | ** |
| Maltase | 200 DP | ** |
| Lipase Thera-blend® | 800 FIP | ** |
| Cellulase Thera-blend® | 400 CU | ** |
| Invertase | 150 SU | ** |
| Hemicellulase | 50 HCU | ** |

** Daily Value (DV) not established

OTHER INGREDIENTS:

100% vegetarian capsule
(HPMC water)

CONTAINS NO: Casein, crustaceans, eggs, fish, gluten, milk, nuts, sesame, shellfish, soy, wheat; Artificial colors, fillers or flavors

RECOMMENDED DOSAGE:

1-2 capsules per meal with the first bit of food. More may be taken as recommended by a healthcare practitioner.

The Difference is Thera-blend®

Enzyme Science Intolerance Complex® is formulated with a proprietary technology known as Thera-blend®, to deliver multiple enzymes that work synergistically across the entire pH spectrum of the GI tract. This proven technology gives Enzyme Science formulas superior potency. Our enzymes can survive the acidic and alkaline environments of the GI tract, so they can get to where they're needed.

Intolerance Complex® for Optimal Digestion*

Optimal health starts with optimal digestion. That requires sufficient enzymes to break down the foods we eat and provide the nutrients the body needs to maintain health and wellness. Intolerance Complex® includes higher-potency enzymes that offer support for food sensitivities.* This unique formula helps the body break down food more efficiently.* It delivers fast digestive relief for occasional bloating, gas and indigestion.*
